Nonsense Mutations in Cystic Fibrosis: One $64,010 grant available. Cystic fibrosis is a genetic condition affecting the lungs and digestive system. The grant will be awarded to advance research and understanding of a treatment or cure that would impact people carrying a nonsense mutation. The research should include, but not be limited to, the R1158X gene mutation. This grant is made possible by Team Movin’ for Mallory: Cure Cystic Fibrosis! and the Movin’ for Mallory organization.
